

# INTEL STACK.

AI tools for research, intelligence, and decision support. Turning scattered sources into decision-ready briefs.

1) Synthesize

2) Monitor

3) Compare

4) Surface

5) Frame

6) Decide

## Research Brief Builder

Turn sources into decision-ready briefs

1

## Opportunity Intel

Spot signals, compare opportunities

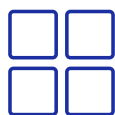

2

## Diligence Partner

Vet before you commit

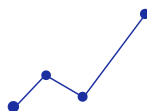

3

## Decision Framework

Turn messy inputs into clear options

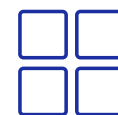

4

## Signal Tracker

Track what changed and why it matters

5

## Strategic Analysis

Pressure-test before you act

6

## These tools are different

- > Sources and complexity become usable
- > Assumptions become visible
- > Extract relevant data, rapidly

## RESULTS

- > Raw material into briefs, fast
- > Diligence before commitments
- > Decisions backed by structure
